- aa) to the extent such exclusion is necessary to avoid fractional shares; or
- bb) if the issue price of the new shares is not significantly below the market price of shares of the same class already listed and the total number of shares issued against contribution in cash, excluding subscription rights, during the term of this authorization does not exceed 10% of the share capital on the date this authorization takes effect or at the time it is exercised, in accordance with or in the respective application of Section 186 (3) sentence 4 AktG.

The total number of shares to be issued via capital increases against contribution in cash, excluding subscription rights and based on the authorizations mentioned above shall not exceed 10 % of the share capital when calculated based on the authorizations' effective date or exercise, whichever amount is lower.
